Work: Department of Medicine and Surgery, University of Parma Via Volturmo, 39/E, 4
3125 Parma (Italy)

ABOUT MYSELF

Psychologist with a Ph.D. in Neuroscience and postdoctoral research experience at the University of Parma. My academic and professional profile combines scientific research and clinical practice, with a focus on brain mechanisms underlying action imitation, motor learning, and recovery of motor functions in neurological patients. I have extensive experience in neuropsychological assessment and rehabilitation, working with both children with neurodevelopmental disorders and adults with acquired brain injuries. Skilled in fMRI data analysis and neuropsychological testing, I integrate research methods into evidence-based clinical interventions.

WORK EXPERIENCE

Department of Chemistry, Life Sciences and Environmental Sustainability, University of Parma – Parma, Italy

City: Parma | Country: Italy

Contract professor

[01/03/2022 – Current]

Research Methods in Cognitive Neuroscience (05/D1 - BIO/09 Physiology), Degree course in Translational Biomedical Sciences (TBS), Credits=6, 56 hours.

Department of Medicine and Surgery, University of Parma – Parma, Italy

City: Parma | Country: Italy

Postdoctoral Researcher

[01/11/2024 – Current]

Research activity in cognitive neuroscience and human neuroimaging (BIO/09 Physiology).

Studio di Neuropsicologia Sant'Ilario – Sant'Ilario D'Enza, Reggio Emilia, Italy

City: Sant'Ilario D'Enza, Reggio Emilia | Country: Italy

Clinical psychologist

[01/09/2024 – Current]

Psychological consulting, neuropsychological assessment, rehabilitation, treatment of developmental learning disorders, language disorders, cognitive disabilities.

Neuroradiology Unit, University Hospital of Parma – Parma, Italy

City: Parma | Country: Italy

Research Fellow

[01/09/2021 – 01/09/2024]

Research Project: "Effectiveness of Action Observation Therapy based on Virtual Reality technology in motor rehabilitation of paretic stroke patients: a randomized clinical trial" (BIO/09 Physiology).

Funding: Italian Ministry of Health (MOE), Starting Grant SG-2019-12370506.

Main role: Principal Investigator (2021-2024).

 **Department of Medicine and Surgery, University of Parma** – Parma, Italy

City: Parma | Country: Italy

Postdoctoral Researcher

[01/03/2019 – 01/09/2021]

Research Project: "Functional and structural changes of the cerebral cortex in children affected by unilateral cerebral palsy after application of Action observation Therapy based on pathological model" (BIO/09 Physiology).

Supervisor: Prof. Leonardo Fogassi.

Main activities: planning of functional MRI experimental design, data collection and analysis, MRI operator for GE 3T systems (>500 h), preparation of edited audio-videos stimuli, papers writing, experience in writing research Grant projects.

 **Department of Psychology, University of Turin** – Turin, Italy

City: Turin | Country: Italy

Research Fellow

[01/03/2018 – 01/03/2019]

Research Project: "The body in human and monkey brain" (M-PSI/02).

Supervisor: Prof. Francesca Garbarini.

Main activities: Training of non-human primates. Kinematic recordings and analysis of monkey movements during visuo-tactile stimulation and rubber-hand illusion.

EDUCATION AND TRAINING

Post-Graduate training program in Psychotherapy

Academy of Developmental Neuropsychology (ANSVI) [01/01/2022 – Current]

City: Reggio Emilia | Country: Italy | Field(s) of study: Developmental Neuropsychology, assessment and planning of rehabilitation and psychotherapeutic treatments

National Academic Qualification as Associate Professor (BIO/09 – Physiology; M-PSI/01-02-03 – Psychology)

Italian Ministry of University and Research - MUR [01/03/2025]

City: Parma | Country: Italy

Ph.D. in Neuroscience

Department of Medicine and Surgery, University of Parma [01/11/2014 – 01/11/2017]

City: Parma | Country: Italy | Thesis: Modulating the Mirror Neuron System by action observation in children with Unilateral Cerebral Palsy. Supervisor: Prof. Leonardo Fogassi.

Qualification Licence of professional practice in Psychology, nr. 8021, section A

Order of Psychologists, Emilia Romagna [12/02/2015]

Country: Italy

Second Level University Master's Course in Clinical Neuropsychology

European University of Rome and Skinner Institute [01/11/2014 – 01/11/2017]

City: Rome | Country: Italy | Thesis: Auditory Representation of actions in apraxia: a single case study. Supervisor: Prof. Luigi Troiano.

Master's Degree in Psychology

Department of Psychology, University of Messina [01/10/2011 – 01/10/2013]

City: Messina | Country: Italy | Thesis: The spatial representation of social roles: a cross-cultural study on the Spatial Agency Bias. Summa cum laude. Tutor: Prof. Massimo Ingrassia.

Bachelor's Degree in Psychological Science and Techniques

Faculty of Educational Science, University of Messina [01/10/2008 – 01/10/2011]

City: Messina | Country: Italy | Thesis: Assessment and treatment of the obsessive-compulsive disorder in children. Tutor: Prof. Giuseppina Filippello.

Training in Developmental Clinical Neuropsychology

Child and Adolescent Neuropsychiatry service, AUSL Parma-Est [01/04/2024 – Current]

City: Langhirano (Parma) | Country: Italy

Training in clinical neuropsychology, assessment, rehabilitation, psychoterapy

Training in Developmental Clinical Neuropsychology

Child and Adolescent Neuropsychiatry service, AUSL Parma - Fidenza District, Italy [01/03/2023 – 01/07/2023]

City: Fidenza | Country: Italy

Training in clinical neuropsychology, assessment, rehabilitation, psychoterapy

Training in Developmental Clinical Neuropsychology

Child and Adolescent Neuropsychiatry service, AUSL Parma - Fidenza District, Italy [01/03/2022 – 01/07/2022]

City: Fidenza | Country: Italy

Clinical assessment and treatment of patients with Autistic Spectrum Disorders (ASD).

Training in Clinical Neuropsychology

Neurorehabilitation Institute "Il Mandorlo" [01/04/2014 – 01/10/2014]

City: Reggio Di Calabria | Country: Italy

Neuropsychological assessment, rehabilitation, cognitive treatments, psychological counseling. Area of treatment: severe acquired brain lesions, neurodegenerative disorders, traumatic brain injury.

Training in Clinical Psychology

Psychiatric Institute "Villa S. Agata" [01/04/2013 – 01/04/2014]

City: Reggio Di Calabria | Country: Italy

Conducting structured clinical interviews, psychoeducation and skills training groups, participating in team meetings with psychiatrists, social workers, nurses, and occupational therapists.

LANGUAGE SKILLS

Mother tongue(s): Italian

Other language(s):

English

LISTENING B2 READING C1 WRITING C1

SPOKEN PRODUCTION B1 SPOKEN INTERACTION B1

Levels: A1 and A2: Basic user - B1 and B2: Independent user - C1 and C2: Proficient user

SKILLS

Neuropsychological assessment in children, adults, and elderly people / Neuropsychological rehabilitation / fMRI data acquisition: >500 hours of scanner operation experience / MRI devices: Nordic NeuroLab visual system; Cinema vision Resonance Technology / fMRI analysis: Brain Voyager, SPM12, CONN, Anatomy, MVPA, Real Time fMRI / DTI processing and tractography: FSL, TrackVis, DSI Studio / Eye-tracking: Arrington ViewPoint / Programming environments: MATLAB, E-Prime, Presentation, PsychoPy / Motion tracking system: Tracker software / Statistical packages: SPSS, Statistica, PRISM, R / Adobe Photoshop, Affinity Photo, Flash, Illustrator, Adobe Premiere, Final Cut Pro, VirtualDub / Audio Editing: Praat, Cool Edit Pro / 3D Design: Poser Pro 2014, DAZ 3D Studio

HONOURS AND AWARDS

[01/09/2020] Italian Ministry of Health

Starting Grant SG-2019-12370506

The Starting Grant from the Italian Ministry of Health (€ 130.000) is an award granted to young researchers under the age of 33 who have demonstrated an outstanding scientific and academic track record. It supports the development of clinical research projects of high national relevance.

The specific project funded by this grant was a randomized controlled trial (RCT) entitled: "Effectiveness of Action Observation Therapy based on Virtual Reality technology in motor rehabilitation of paretic stroke patients: a randomized clinical trial."

NETWORKS & MEMBERSHIPS

[01/09/2019 – Current]

Ordinary Member of Society for Neuroscience (SFN)

[14/11/2017 – Current]

Ordinary Member of Federation of European Neuroscience Societies (FENS)

[01/10/2022 – Current]

Ordinary Member of the Italian Society of Neuropsychology (SINP)

[01/06/2024 – Current]

Ordinary Member of the Italian Society of Neurological Rehabilitation (SIRN)

CLINICAL AND RESEARCH INTERESTS

Neurophysiology

- action coding (e.g., action observation; motor imagery, action execution; visuomotor representations; mirror neurons)
- parieto-frontal circuits in the human/primate brain
- role of subcortical structures during action observation/execution
- action observation treatment in children with Unilateral Cerebral Palsy
- neuroimaging techniques, especially functional magnetic resonance imaging (fMRI), multivariate connectivity

Neuropsychology

- clinical neuropsychology and rehabilitation
- developmental disorders (cerebral palsy; DCD; language disorders; cognitive disability)
- learning disorders
- acquired brain lesions

PROJECTS

[2024 – Current]

ATHENA - More than cerebral cortex: 7T Anatomic-functional characterization at 7T of cortical, subcortical, and cerebellar structures involved in THE Network of Action observation.

University of Parma – Imago7 Foundation. Responsible of 3T fMRI data acquisition and analysis.

[2024 – Current]

PRIN “Decoding kinematics of others' actions for learning new motor skills in healthy individuals and children with motor deficits: Neuroimaging studies and early Health Technology Assessment”.

University of Parma – IRCCS Stella Maris – Imago7 Foundation. Main role: Responsible of fMRI work-packages (3 studies) with 3T MRI. PI: Prof. Leonardo Fogassi.

[2022 – Current]

PRIN “The Neurophysiological Bases of Biological Motion: From Laboratory to Clinics”. Main role: Responsible of fMRI work-packages (3 studies).

University of Parma – University of Ferrara – University of Rome “La Sapienza”. PI: Prof. Leonardo Fogassi.

[2022 – Current]

Project “ACT-ON-DIP: action observation tele-rehabilitation for upper limb in children with diplegic cerebral palsy”

IRCCS Stella Maris – University of Parma, IRCCS Reggio Emilia. Main role: Responsible of fMRI data acquisition and analysis. PI. Dott. Giuseppina Sgandurra.

[2021 – Current]

Project “Action imitation and Mirror Neuron System activation in patients with Alzheimer Diseases.

University Hospital of Parma. Main role: Responsible of fMRI data acquisition and analysis. PI: Dott. Marco Spallazzi.

[2021 – 2023]

Project “Activation of the Mirror Neuron System during observation and execution of facial expressions in patients with Moebius Syndrome”.

University Hospital of Parma, Institut des Sciences Cognitives “Marc Jeannerod”, Lyon, France. PI: Dott. Bernardo Bianchi. CO-PI: Prof. Pier Francesco Ferrari.

[2020 – 2022]

Project “Effectiveness of action observation therapy based on pathological ameliorative model in the motor rehabilitation of hemiplegic children: a randomized-controlled clinical trial”.

University of Parma, Italy. Main role: Research assistant. PI: Prof. Leonardo Fogassi.

[2018 – 2020]

Project “Audio-visual processing of mouth actions in patients with Disorders of Consciousness”.

Coma Research Centre, Neurological Institute C. Besta, Milan, Italy. Main role: Research assistant. PI: Dott.ssa Maria Grazia Bruzzone.

[2018 – 2019]

Project “The body in human and monkey brain”.

University of Turin, Italy. Main role: Research assistant. PI: Prof. Francesca Garbarini.
